### Project Description

Members of this project will introduce one another to the puppets that exist in their own countries. Through the puppets, students will be given an insight into the history, culture and art in Asia and Europe.

### Rationale for the Project:

1. To develop students their knowledge of culture in the world.
2. To inform the local culture through the web.
3. Getting the philosophy taken from the puppet.
4. Understanding the different characteristic of each puppet in the world.
5. To inform the message expressed from the story of the puppet on the web.

### Expected Contribution from Asian and European Schools/Students

Share their puppet through the web.
