Project Description

This project allows for students to share their opinions on what Peace means to them, in the wake of all the turmoil in the world. It will remind them that Peace should never be simply taken for granted in the rapidly changing global world

Proposed Timeline

1. OCTOBER-DECEMBER 2006

Students will share their personal profile.
They will express their interpretation of Peace

2. JANUARY-MARCH 2007

They will produce stories, poems or lyrics to songs about Peace, either individually or in groups
Schools will choose to illustrate the written work of other schools through various media eg illustrations, music, drama

3. ALL THROUGH THE YEAR

Periodically, teacher input in the way of articles on current affair issues will be posted on the forum and discussion will be encouraged

A Peace Bear will travel round to every represented country and spend a maximum of 2 weeks there. Students are to write a journal online about the bear's stay with them and perhaps share a little about their country through his visit.

4. APRIL 2007

As a final assignment, students will be placed in mixed groups and given a group task. This will encourage collaborative work among the various representative schools. They will be given a time limit and the best group may be awarded a special prize.
