PROPOSED PROJECT NAME:

A Diary of Our Life

PROJECT DESCRIPTION / SUMMARY

The "Diary of Our Life" project will allow the students to learn about everyday life of the participating students. They would focus on the cultural events, traditions and customs they participated at, this way they may introduce historical and natural beauties of the regions as well. At the same time, the students may discuss their life, hobbies and interests. All in all this can be a way of getting to know the world, practising not only the knowledge of language and IT but the creativity and humour the teens have. When they would share thoughts, ideas, photos and all the facts about their countries, regions and schools it can be the way of intercultural learning.

There will be a website established to edit the stories and regional information as well as pictures. When decided what should be published by each of the members, it can be send to the project co-ordinator to publish/edit it on the website of the project. Additionally, the students can also contact each other via the cyberspace.

RATIONALE FOR THE PROJECT:

As we all want to live in a safety world, we should be working together in peace, and the only way to improve our relationships is to learn and understand each other. Through learning about the life, traditions and customs we became to be more open with no prejudices.

Involving and letting young people to work out the idea of this project is a core stone for their future as we all live in some society and we, adults should help them to find their way and themselves and we think that the best way how to reach this goal is to let them work and play together.

Using the English language and IT they may learn or advance their skills in those fields.

EXPECTED CONTRIBUTION FROM ASIAN SCHOOLS/STUDENTS:

We expect that students would exchange information on cultural events, ceremonies, habits, festivals, etc. in which they celebrate the roots or express themselves. Through exchanging photos and stories about the natural and historical beauties of the region they would learn about their school lives of the participants.

EXPECTED CONTRIBUTION FROM EUROPEAN SCHOOLS/STUDENTS:

The same as above.
